Kodol
Dyspepsia Cure

Some people wonder why pepsin preparations don't help their dyspepsia. They probably suffer because they can't digest foods that pepsin does not affect. The reason is, pepsin digests only nitrogenous foods, while different substances are required to digest the variety of other foods necessary for proper nourishment.

Kodol Dyspepsia Cure contains all the digestants, and is capable of completely digesting every kind of food. That is why it digests what you eat and allows you to eat all the variety you want; and that is why it cures indigestion, even after everything else has failed. As it is the only preparation of the kind known, the demand for it has become enormous. Its use affords instant relief from all forms of stomach trouble.

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The 81. bottle contains 2 1/2 times the 50c. size.

When you suffer from biliousness or constipation, use the famous little liver pills known as **DeWitt's Little EARLY RISERS**. They never gripe.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

An Open Letter.

We desire to say that our business since January 1st has passed the mark anticipated. We wish to be frank; therefore we are not attempting to talk to business people and put it in the form of a polished essay. The advantage of having merchandise different from your competitors is apparent, provided that the retailer is known to be reliable. Does not a good deal of advertising appear to you as though the advertisers were indulging too freely in Fine Words? Most of them seem to say something that means nothing. Names are invented for goods that have no bearing whatever to the materials; turned and twisted until they are no longer relevant, all of which is done to tone the product, because the product hasn't enough of it. Fine feathers make fine birds, but fine words do not make fine goods. We are strong believers in advertising, because it is a good thing; but advertising doesn't pay unless constructed on a proper basis, and that is to plainly tell people what you have to sell, and sell it as low as is consistent with legitimate business methods.

Our spring importation of Dress Goods, White Goods, Carpets, Mattings and Housekeeping Goods generally is complete. Come and learn prices, which will be found to be as cheap as the cheapest, quality considered. Respectfully,

GEORGE COX & SON.
